Relevant Skills

I am very knowledgeable about clearance requirements and am able to create graphics, tag lines and copy that is sure to clear. I am also adept at providing concise information to make the clearance process as fast and painless as possible. I have also established strong relationships with multiple print shops to ensure every job gets done right and on time.

I am also an excellent self-manager and heavily utilize one-liners and prep schedules to ensure that graphics are done and delivered at the right time, with the right priority.

I work mostly within Adobe CC (Illustrator, Photoshop, InDesign, etc.) but have a passable knowledge of SketchUp and others if the need should arise.

Education

- Associate of Arts from State College of Florida, 2013
